Career Objective

I'm a Computer Science Engineering student at Delhi Technological University with a strong interest in AI/ML, frontend development, and DSA. I enjoy bringing ideas to life through code, and I'm most comfortable working in Python and C. Over time, I've built projects like a Zomato clone, a resume screener, and a resume maker — each one teaching me something new about development and design.

Currently, I'm interning as a video content creator at ProgrammingKnowledge, where I create educational content for tech learners. I also love participating in hackathons, where I get to collaborate, learn fast, and solve real-world problems. I'm always open to new challenges, whether it's learning a new framework or working on impactful projects.

Education

Delhi Technological University | B.tech | 2024 - 2028
Govt. Sarvodaya Co-ed Vidyalaya | Secondary School (CBSE) | 2013 - 2023

Work Experience

ProgrammingKnowledge
Python video content creator
Jan 2025 - Present

Extra-Curricular Activities

- Participated in hackathons like Vihaan 8.0 , Execute 4.0 and Hackamania, building impactful tech solutions under real-world constraints.

- Initiated and led multiple project teams focusing on real-world issues like women safety and smart healthcare (IoT pill dispenser).

- Actively participating in activities organized by the societies/clubs of the university.

Projects

Resume Maker

Mar 2025 - Mar 2025

A dynamic web app that generates customizable PDF resumes with live image upload, styled sections, using html,css and js only

Live Demo

Portfolio Website

April 2025-April 2025

A personal portfolio website built using React and Vite to showcase my projects, skills, and achievements with an interactive and modern UI.

Live Demo

Zomato Clone

Nov 2024 - Dec 2024

A Zomato-inspired food delivery web app that replicates core features like restaurant listings, search, filters, and responsive UI using HTML, CSS Only for my Sem Project

Live Demo

SoftSell

May 2025 - May 2025

full-featured platform for buying and selling digital software products, designed with modern UI/UX and built to streamline secure online transactions.

Live Demo

Skills

Frontend	HTML5	CSS3	JavaScript
Python	C	React.js	Tailwind CSS
FastAPI	Content Creation	Express.js	Node.js

Accomplishments / Additional Details

- I am Champions milestone achiever at google cloud arcade facilitator program'24
- I am Dell Aspire Scholar'28
- I have been awarded by the Parliament of India for securing 2nd position in Youth Parliament Competition
